

# INTRODUCING THE FUTURE OF RECRUITMENT

*We're proud to introduce our cutting-edge recruitment tool, People Showcase.*

People Showcase is a revolutionary platform that allows candidates to showcase their skills, experience, and personality in a way that traditional resumes can't.

With People Showcase, candidates create an online profile that includes videos, images, and other content that helps them stand out to potential employers.

---

## A Speed-to-Hire Solution

- Your team may be facing a shortage of resources, a limited pool of applicants, and the enormous amount of time it takes to schedule multiple interviews with various stakeholders.
- On top of that, traditional recruitment methods can be impersonal and make it difficult to assess culture/values fit, leading to longer hiring times or not hiring candidates who would truly thrive in positions your team desperately needs.
- If you could hear candidates talk about their experience and what they are truly interested in doing, and if you could screen candidate profiles at times that work for your schedule, the hiring timeline would speed up considerably. You could focus more of your time where you need to spend it.
- With a cost effective, scalable pricing model, People Showcase is a speed-to-hire solution that is accessible and affordable for companies struggling with hiring and retaining top talent.

***Ready to  
find the  
right  
candidate  
for your job  
opening?***

## How it Works with Our Recruitment Offerings

When you partner with APW for your talent acquisition initiatives, you can choose from two options:

- People Showcase is included with our *APW Prime Recruitment* offering ([click here to learn more about this service](#)), so you'll automatically receive profiles for shortlisted candidates from our recruitment team.
- For our *APW Lite Recruitment* offering, you have the ability to use the People Showcase Add-On service to help you focus on making the final hiring decision. ([Click here to learn more about these services](#))
